About Company

Mohamed Ali Abdelattef Co. is one of the pioneer companies in the region specialized in concrete diamond coring and cutting by using latest high tech machines available in the market operated by its professional, well trained and certified technicians. All machines we use in demolition are high quality standard machines. We are one of the company that are equipped with all kind of demolition machines.

Mohamad Ali Abdelattif is committed to meeting all the requirements of its clients and regulatory bodies at all times and at minimal cost. All employees are responsible for the quality of work carried out on maintenance services and operations. They have the authority to ensure that quality requirements are met in full, improve our maintenance quality, satisfy its clients and comply with the requirements as defined in international standard Quality Management System ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007.

CEO Message

Mohamed Ali Abdelattef

Since 2004, we have endeavored to contribute to the prosperity of our clients and society from a global perspective.

Today, uncertainty about the global economy is widespread. By viewing changes in our environment as business opportunities, we remain firm in our commitment to developing advanced technologies and formulating innovative proposals unique to our company.

In addition to fulfilling our social responsibilities, our employees continue to focus all of our corporate resources to provide professional services to meet our client needs.

04

● Our Visions

To become the leading construction firm, while delivering projects that consistently exceed international standards and provide exceptional customer satisfaction.
To continually deliver excellent value & innovative construction solutions to meet our clients' requirements.

● Our Missions

To be a leading construction company in the global market.
To become the customers' most preferred choice by attaining excellence in quality and timely completed value added projects.
To provide the highest level of service in the construction industry while offering superior craftsmanship to every project, we handle.

Mohamed Ali Abdelattef

05

Demolition Robot

Robots are specifically designed for high performance demolition. Whether the work environment is construction, metal processing, nuclear or underground, the compact profile of a Brokk allows access to places too small, too difficult or too dangerous for people or traditional machinery. These qualities combined put Brokk demolition robots in a league of their own when compared to traditional demolition methods and equipment.
